

SABRES BASKETBALL FUNDRAISING POLICY 2012

All fundraising activities are to be coordinated through the Social Committee (SC) of the SBA. The SC will produce an annual calendar of events that will be published and circulated to all members of the Sabres Basketball community. SBA administration staff will assist the SC with all its events as required.

The SBA Board will determine the distribution of funds. The SBA Board will communicate what percentage level of funding is available, and for what purpose at the same time that the calendar is published. Funding will be provided to the relevant stakeholders at the completion of the published calendar.

The SBA will advertise the results of the fundraising activities on its website, and through monthly communication to all junior Sabres team managers.

This initiative is designed to assist in fostering a healthy culture of holistic support within the Sabres program. It is anticipated that wherever possible all members of the Sabres community will contribute to the fundraising initiatives as set out.

The Board of the SBA must first approve any other fundraising outside of the published calendar of events in writing.
